C REBLINDUSTRIES

— FLEXIBLE AUTOMATION as a Service —

Our mission is to provide appreciated, committed and efficient workmates.

That is why we want to make robot automation even easier, faster, cheaper and more accessible than hiring a temp.

Our History

Joins Collaborative Robot Systems Laboratory

Automation as a Service (AaaS) offering

Rebl Ctrl released

Founded in 2018

Offices in Gothenburg & Skövde

Born out of a frustration

Working toward a risk free concept for flexible automation

AI + UX + Industry 4.0

Kitting as a service - project

Rebl brings life to Emil, Karl and Ida

Core-Competencies:

Automation Systems

Manual Assembly Process

Cloud Development

3D Vision

Al/Machine Learning

Business Development

Sales

New user and consumption behaviour user experience obsession - get inspired, share & collaborate

Automatic Updates and Upgrades Pay for what you use Economy of scale Physical resource sharing with others SONOS aws Personalization Low start-up cost ORACLE CO&NN/1 Digital resource sharing with others Flexible grouping airbnb IBM **Bluemix**™ Specialized playlists Be influenced by others Microsoft Azure Plug and play See playlists Innovation accelerators Supports for your units and sources

"It's Not the Big That Eat the Small...It's the Fast That Eat the Slow"

Jim Collins, How the mighty fall

REBLINDUSTRIES

Pre-configured Workmates

Some of our pre-trained workmates get INSPIRED, SHARE & COLLABORATE

Emil

Picking and kitting. Picks from pallets or material facades. Makes sure the kitting is right for the operators.

Hidden talent:

Great at interpreting CAD-files and learns with ease how to pick new things.

Picks up the mantle: Emil will handle the kitting of a normal kit for you within 2-4 weeks.

Karl

Can operate one or several machines. Loading and emptying if he only gets a little help transporting the goods. He will figure out how to arrange things.

A tender of many machines, works both with finger grippers and vacuum grippers, has an ace up his sleeve.

Operational in: 1-2 weeks

Ida

Sanding, likes to sand surfaces that are a challenge to the surface grinder, that requires som extra sanding skill.

Experience: Adds upp. All sanded surfaces are logged and are used for follow up and learning. All experience included.

Starts sanding: Get a skilled operator in 2-3 weeks
